

3rd Capsule Course , Basics of Medical Education Technologies

The Medical Education Unit has successfully conducted 3rd capsule course on Basics of Medical Education Technologies for Senior & Junior Residents on 4th & 5th of August 2023 at the Training Hall. A total 17 Residents attended the program. Nine faculty members contributed as resource persons. All the sessions were interactive with hands-on training and microteaching. Pre & post-test evaluation and feedback by participants show that the program has successfully achieved its objective of sensitising the teachers in health professions about new concepts in teaching and assessment methods.
