

### **3<sup>rd</sup> ANNUAL RESEARCH DAY**

All India Institute of Medical Sciences, Kalyani celebrated its **3rd Institute Research Day** on 12th November, 2025. This day is celebrated every year as the Research Day to commemorate the immense contributions of Late Dr. Dilip Mahalanabis, who was the inventor of Oral Rehydration Therapy and was a Padma Vibhushan awardee. The theme for this year's event was "**Fostering Innovation from classroom to clinics**". This year's program was graced by the presence of **Prof. Yogesh Kumar Sarin, Director Professor, Paediatric Surgery, Lady Hardinge Medical College**. Prof. Sarin delivered the Research Day oration on the occasion. His talk was inspiring and educated the institute about the various facets of innovation. He emphasised how critical thinking should be encouraged and should be aligned with the felt needs of patients and health care professionals. He also highlighted the role of the institute in providing a platform for critical minds to excel in their pursuit of innovation.

**Prof. Arvind Sinha**, Executive Director of the Institute congratulated all the stakeholders for their commitment towards research. He stressed about the need for more investment in research for the betterment of the society. During the brief presentation he also highlighted the significant strides made by the institution in the field of research. Prof. Aparna Palit, Dean Research congratulated the members of the institution for their efforts and provided important insights for the future. Prof. Mahuya Chattopadhyay (Medical Superintendent), Prof Ajay Mallik (Dean Examination) and Prof. Kalyan Goswami (Immediate past Dean Academics and Nodal Officer-Multidisciplinary Research Unit) were present on the occasion. The best researchers amongst the faculty members, residents and students were felicitated on the occasion. Special appreciation was also given to the best performing departments in research.
